ABOUT ME

Final-year Computer Science student with hands-on experience developing real-world software applications in a professional environment. Experience working with web and mobile systems, automation, dashboards, and generative AI solutions. Self-taught profile, focused on building practical solutions, continuous learning, and developing a strong technical portfolio.

PROFESSIONAL EXPERIENCE

Software Development Intern
Record TV — Oct 2024 – Jan 2026

- Developed production-ready internal applications used by operational teams
- Built a media management system for content organization, versioning, and user access control
- Developed a playlist control system for vMix, automating broadcast workflows
- Contributed to a TV 3.0 mobile application (Netflix-like experience)
- Built a custom prompt platform using the OpenAI API for internal automation and experimentation
- Developed a daily reporting and monitoring system using Grafana
- Worked with Node.js, Python, REST APIs, Android Studio, and Kotlin

IT Support / Help Desk
Atacadão Dia a Dia — Jun 2023 – Jan 2024

- Provided daily technical support to internal users
- Troubleshot system, hardware, and access-related issues
- Communicated directly with users and IT teams to resolve incidents efficiently

---

EDUCATION

Bachelor's Degree in Computer Science (7th semester)
Centro Universitário de Brasília (CEUB)
Expected Graduation: December 2026

TECHNICAL SKILLS

Programming Languages:
JavaScript · Python · Kotlin

Back-end:
Node.js · Django · REST APIs

Mobile Development:
Android Studio · Android Development with Kotlin

Databases:
MongoDB · PostgreSQL

Tools & Technologies:
Git & GitHub · Docker (basic) · Grafana · Linux (basic)

LANGUAGES

English – Intermediate
Portuguese - Native

CAREER OBJECTIVE

To work as a Junior Software Developer or Advanced Intern, focusing on back-end, mobile development, and practical solutions, contributing to real-world projects while continuously improving technical skills in collaborative environments.
